SUMMARY

- I am a junior front-end developer who focuses on writing clean, elegant and efficient code.
- In my latest project I developed a fully-functional ecommerce website. I designed it using Vanilla JavaScript and Node.js, Express and MongoDB.

SKILLS

- HTML5, CSS3, JavaScript, Node.js, Express, MongoDB
- Sass, BEM, Bootstrap, NPM, Git

LATEST PROJECTS

Full-Functional ECommerce Website | code | live

- A side project to create an ecommerce website that connects to Paypal.
- Learned SPA development using MERN stack.
- Challenges include connecting to paypal and user authentication using JsonWebToken.

Cloud Hosting Website | code | live

- A fake cloud hosting platform website created with custom CSS like Bootstrap.

DevCamper API | code | doc

- Backend API for DevCamper application, which is a boot camp directory website.
- Learned Node.js, Express, MongoDB Atlas & Compass.

EXPERIENCE
